

# SISTERS FROM COAST TO COAST

I WOKE UP BLEARY EYED FROM SURGERY. TRYING TO GET MY bearings, I noticed a man walk into my room. "Can I help you?" I whispered. He smiled a crooked, knowing grin and asked me to sign for the flowers. "What flowers?" I thought. My eyes finally focused as I scanned the room and found it completely full of stunning flowers from my Close To My Heart sisters. But that wasn't all. There were homemade cards, fun phone calls, and inspiring visits. My eyes still well up with tears of gratitude when I think of the love and support they showed me during that rough time. You see, I didn't always have this close-knit group of sisters.

In my early days at Close To My Heart, I was moving every year to different states. Instead of being lonely and sad about moving so much, I decided to make new friends in each place. These friends became my team members, and we are now more than 3,000 strong! My group is scattered across the nation, but we have developed an amazing sisterhood while having fun and doing what we love—stamping and scrapbooking.

I loved working the business, but I didn't know how much I needed it until my husband lost his airline pilot post after 9/11. Soon after he lost his job, he sat me down and told me I needed to get a real career and make real money. I told

him what I made with Close To My Heart and he was shocked! He didn't realize that the hobby I had so much fun working with my friends could bring in so much money. He pushed me to make even more, and I did!

It is my group of sisters that make me enjoy working the business so much. Close To My Heart has given me an avenue to improve my personal leadership skills. I now feel like I am in a position where I can lead, sell, have relationships, and, most importantly, mentor others, all while making a good income. I lead by example and my methods are easy to reproduce. Everyone can be a success with Close To My Heart. ♥
